SOFTWARE DEVELOPER

Passionate Software Engineering Student with extensive knowledge in **Programming Languages, Web Development, APIs, MVC frameworks**, drive to make a meaningful impact in Technology.

TECHNICAL SKILLS

Languages : Java, Python, HTML, CSS, JavaScript
Databases : WAMP , XAMPP , MySQL
Dev Tools : VS Code, Git, Eclipse

EXPERIENCE

Back-End Developer – LYFT

Jun 2023 – Jun 2023

- Implemented software architecture refactoring using Python.
- Improved code quality and maintainability.

Data Visualization – JP Morgan Chase CO

Jun 2023 – Jun 2023

- Worked with stock price data feed using frameworks and tools.
- Accomplished a bonus task: Open Source Contribution.

EDUCATION

High School (12th Grade)

— *S,G,R,R Public School Race Course*
— Computer Science (PCMC)

March 2019 – May 2020
Dehradun, U.K , India

Secondary School (10th Grade)

— *S,G,R,R Public School*
— Science

March 2017 – May 2018
Vikasnagar, U.K , India

PROJECTS

Project 1-link

[Source Code](#)

- A CRUD API with **Bootstrap, PHP, Wamp, and localhost** for Web Data Management.
- Utilized PHP for server-side logic and Efficient CRUD operations with Databases.

Project 2-link

[Source Code](#)

- Designed a clean University Reserch-Club page using **HTML, CSS, and JavaScript**
- Implemented **Responsive Design** for enhanced cross-device Compatibility.

Project 3-link

[Source Code](#)

- Developed Encryption-Decryption project to secure data Communication using **Python**.
- Implemented robust **Encryption-Decryption Algorithm** to protect Sensitive Information.

CERTIFICATIONS

- Certified Web Developer by the **Sukhad Foundation**
- Data Structure and Algorithm **Devsnest**
- Certified Back End Engineer by **LYFT**
- Online Programming with Python Training **Internshala**
